

The nested environment decomposition (raw welfare)

Within-group Owen values for the environment group. JOB ACCESS is the feasibility of employment and of an occupation; EARNING OPPORTUNITIES is the wage-offer technology (education and experience returns); ENDOWMENTS-NEEDS is the budget-side channel -- non-labour income, household composition and the tax-benefit treatment of them. Structural and model-conditional; not causal. FINAL_SINGLES_PROVISIONAL_PENDING_ECONOMICS_REVIEW.
